

## Home Based Family Centered Casework Services

Home-based Counselor will offer the provision of structured, goal-oriented, time-limited services in the natural environment of families weekly or as determined based on the needs of the family. Meetings are used to establish goals, evaluate client's preparation for and progress in meeting those goals, and to establish and build the skills necessary in goal attainment.

### Services include:

- Supervised visitation can be included in this service.
- The Home-based Counselor will provide referrals when necessary for intensive substance abuse services, medical services, developmental services, psychiatric evaluations/services and employment training services.
- Documented suggestions for further treatment or interventions are provided.
- The Home-based Counselor, when family goals indicate, will work with the local school system to monitor child educational progress, behavior at school, and organize services to assist the child in successful educational progress.

## Home Based Family Centered Therapy Services

Home-based Counselor will offer the provision of structured, goal-oriented, time-limited services in the natural environment of families weekly or as determined based on the needs of the family. Goals will be established through identification of client/family strengths and challenge areas. Meetings are used to establish goals, evaluate client's preparation for and progress in meeting those goals, and to establish and build the skills necessary in goal attainment.

- Specific therapeutic models and skills utilized will be determined as appropriate for meeting the needs of the client/family.
- Counselor assists clients in exploring potential concerns that may hinder success including substance abuse, sexual activity, violence, or other potentially harmful behaviors.
- Therapeutic Supervised Visitation can be included in this service.

## Homemaker/Parent Aid

Homemaker/Parent Aid services will offer the provision of structured, goal-oriented, time-limited services in the natural environment of families weekly or as determined based on the needs of the family. The Homemaker will provide assistance or instruction of individualized needs. Services are provided to assist in decreasing the family's risk of the removal of their children, reduce the length of separation when substitute care is necessary, increase the potential for family reunification and reduce the recidivism of abuse/neglect.

### Issues addressed may include:

- Housekeeping
- Scheduling medical appointments
- Grocery shopping
- House/apartment hunting
- Other necessary skills
- Supervised visitation can be included in this service
