

Evaluations/Assessments/Counseling

- **Counseling – Individual/Family (Medicaid billable)**

Office appointments are scheduled for individual or family sessions. Goals will be established through identification of client/family strengths and challenge areas. Specific therapeutic models and skills utilized will be determined as appropriate for meeting the needs of the client/family. Meetings are used to establish goals, evaluate client's preparation for and progress in meeting those goals, and to establish and build the skills necessary in goal attainment. The Counselor will develop individualized activities to address the client's needs. The Counselor assists the client in including substance abuse, sexual activity, violence, or other potentially harmful behaviors.

Services Include:

- Initial assessment
- Utilization of specific therapeutic models
- Exploring potential concerns that may hinder success
- Address issues and refer, as applicable, to specialized services such as substance abuse, sexual activity, violence, or other potentially harmful behaviors
- Eligible for Medicaid billing

- **Diagnostic and Evaluations Services (Medicaid billable)**

Office appointments are scheduled for individual sessions as appropriate for the specific diagnostic tools and evaluations being utilized for each client. The Therapist will work with DCS to determine diagnostic tools and evaluations appropriate for the client's needs. Results of these meetings will be documented in a Bio-psycho-social and Parent Functioning Assessment. The assessment sets up the rationale for further treatment and assists in identifying interpersonal and dysfunctional relationships, individually and within the family system that may interfere with the daily functioning of an individual. The assessment also identifies symptoms that are characteristic of a DSM diagnosis, as applicable and provides a treatment recommendation summary of services and service approach to address the identified issues. Further testing can be arranged dependent on the individual needs of the client and approval of the DCS.

Services Include:

- Bio-psycho-social Assessment
- Limited Parenting Functioning Assessment
- Diagnosis (if applicable)
- Summary recommendation of concrete services and service approach
- Eligible for Medicaid billing
